

- Full Stack Web Developer with 2.5+ years of strong expertise in building modern, scalable, and high-performance web applications.
- Skilled in developing end-to-end solutions using modern JavaScript technologies including React.js, Next.js, Node.js, and Express.js.
- Proficient in designing and implementing RESTful APIs, integrating third-party services, and building secure, efficient backend systems.
- Experienced working with both SQL and NoSQL databases such as PostgreSQL and MongoDB, ensuring optimized data handling and performance.
- Strong understanding of modern development practices including component-based architecture, server-side rendering (SSR), and API-driven development.
- Hands-on experience with version control, deployment, and cloud platforms, ensuring smooth CI/CD workflows and scalable production deployments.
- Capable of building responsive, user-friendly interfaces with a focus on performance, accessibility, and clean UI/UX design.
- A quick learner and problem solver with a passion for adopting new technologies like automation n8n and delivering high-quality software solutions.
- With a strong background in both front-end and back-end development, I bring a comprehensive understanding of full-stack development.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend	React.js, Next.js, Redux / Context API, Tailwind CSS, Bootstrap, GSAP, WebGL
Backend	Node.js, Express.js, REST API Development, JWT Authentication
Databases	MongoDB, PostgreSQL, MySQL, Firebase,
Cloud & Services	Firebase (Auth, Firestore, Hosting), Third-party API Integration, Server-side Rendering (SSR)

EXPERIENCE

Codematics Inc	Aug 2024 – Present
Web Developer	Abbottabad, PK

- I worked on designing and developing scalable, multi-tier web-based client-server applications using modern technologies including Next.js, React.js, Node.js, Express.js, and PostgreSQL/MongoDB.
- Designed and developed RESTful APIs for various application modules, ensuring secure, efficient, and maintainable backend services.
- Built complete end-to-end full stack applications, handling both frontend and backend development with clean architecture and best practices.
- Implemented robust data access layers and optimized database queries to improve performance and scalability.
- Integrated applications with third-party services and APIs, enabling extended functionality and seamless user experience.
- Worked with server-side rendering (SSR) and API routes in Next.js to enhance performance and SEO optimization.
- Managed databases using MongoDB and PostgreSQL, including schema design, query optimization, and data relationships.
- Implemented authentication and authorization systems using JWT and secure session handling.
- Deployed and managed applications on modern hosting platforms, ensuring high availability, performance, and smooth CI/CD workflows.
- Collaborated with team members to troubleshoot issues, implement new features, and continuously improve application performance and reliability.
- Develop dynamic and responsive user interfaces using React.js and Next.js, focusing on user experience, performance, and clean UI design.

- Serving as an External Supervisor at COMSATS University Abbottabad, guiding Final Year Project (FYP) students in designing and developing real-world software solutions, providing technical mentorship throughout the project lifecycle, trained 40+ students in web development and facilitated their internship placements, equipping them with hands-on industry skills in modern full stack technologies.

Urtaan Technology

Web Developer

Feb 2024 – Jul 2024

Abbottabad, PK

- Worked with React.js to build interactive and responsive user interfaces, focusing on component-based architecture and clean UI design.
- Developed visually rich and animated web experiences using WebGL and GSAP, delivering smooth, high-performance animations and transitions.
- Collaborated with a senior developer on multiple client projects, gaining hands-on experience in professional development workflows and best practices.
- Contributed to the development of client-facing websites including rodeo.fm and tripletta for a Netherlands-based client, ensuring pixel-perfect design implementation and smooth user experience.
- Integrated third-party APIs and services to extend application functionality and improve overall user experience.
- Assisted in building and maintaining modular, reusable component libraries to ensure consistency across projects.
- Participated in team collaboration using Git and GitHub for version control, code reviews, and project management.
- Worked on responsive design implementations, ensuring seamless performance across different devices and screen sizes.

Codematics Inc

KPITB Internship (Web Development)

August 2023 – Jan 2024

Abbottabad, PK

- Selected for a competitive paid internship under KPITB (Khyber Pakhtunkhwa Information Technology Board), gaining strong foundational experience in frontend web development through hands-on project work.
- Built an Expense Tracker application integrated with Firebase, implementing real-time database functionality, user authentication, and dynamic data management.
- Developed a fully functional E-Commerce website, handling product listings, cart functionality, and responsive UI design for seamless shopping experience.
- Created a Movie App with dynamic content rendering, integrating third-party movie APIs to fetch and display real-time movie data and details.
- Built a SaaS-based Todo Web Application with multi-user support, task management features, and clean, scalable frontend architecture.
- Developed a Real Estate website with property listing pages, search functionality, and visually appealing responsive layouts.
- Designed and developed a Software Development company website, focusing on professional UI, service showcase, and smooth user experience.
- Contributed to the development of Triaxis Technology's official website as a client project, delivering a polished and production-ready frontend.
- Worked extensively with React.js, Firebase, JavaScript, HTML, and CSS throughout the internship, building real-world projects from scratch to deployment.
- Gained valuable industry exposure by working in a professional IT environment, improving problem-solving, time management, and development workflow skills significantly.

EGRADUCATION

- Bachelor of Science in Computer Science.
